**NousLogic Inc.** announces the Launch of:

## Smart Access Platform

FOR IMMEDIATE RELEASE

Irvine, California – **NousLogic Inc.** is a California-based IoT company with a mission to cloud-enable existing stand-alone devices from Video Doorbell, Door Lock, Garage/Gate, Keypad, HVAC controller remote (for Smart Building's Smart Access and AirCon Control & monitoring). With wireless sensors and data analytics, we provide insights and intelligence on the 4 **W's** (**Who** is doing **What**, **Where**, **When**) to optimize businesses' operational efficiency as well as to enhance security, well-being, peace of mind of the tenants/consumers.

Our all-in-one, simple DIY installation, **phone/fob-based Smart Access (Door lock, Video Doorbell, Gate/garage** with patent-pending **NFC/QR, Facial ID/Virtual keypad** with flexible access code support) provides a perfect low cost solution to smart access for residential multi-family/commercial office buildings/assisted-living/home health.

Our platform with cloud services and video call capability is a natural fit for B2B partnerships with Airbnb, Amazon Key, dog walking providers, caregivers and many other services. Our products work with Google Assistant, Amazon Alexa and Apple Homekit.

### Key Features

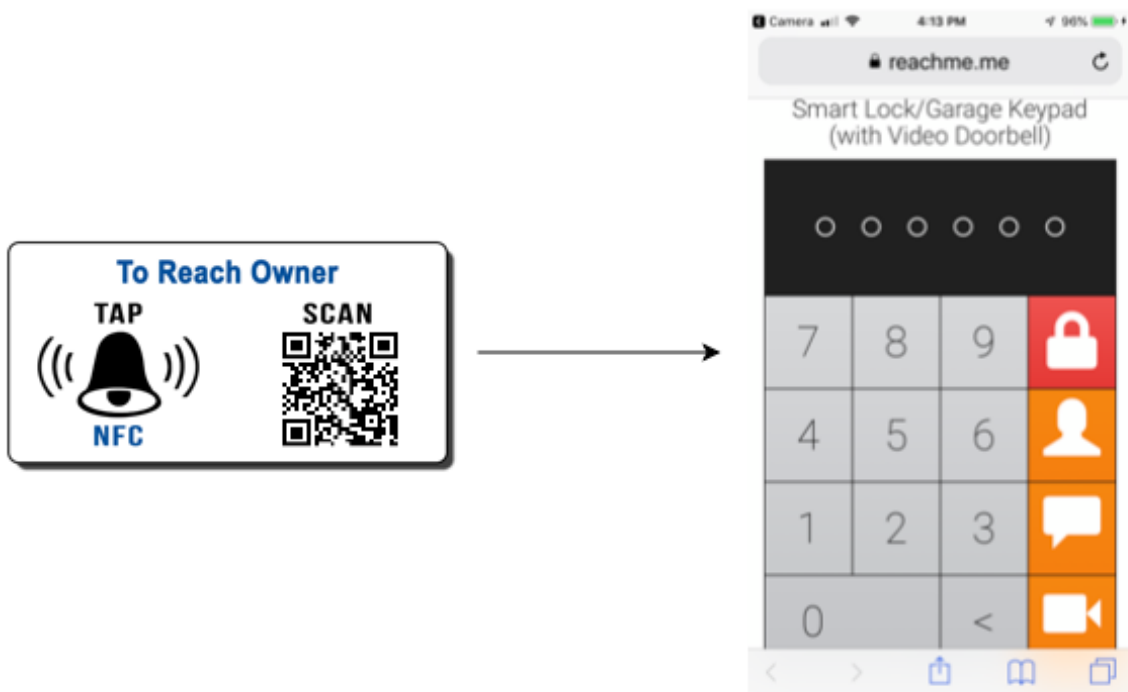

- Phone-based 4-in-1 access platform (NFC/QR video doorbell/Facial ID/Virtual Keypad for access code entry + SmartLock/garage): Guest scans NFC tag to videocall owner & check in (via Facial ID or access codes) to unlock door.

### The Benefits:

- Guests: no need to install any app. Instant direct video call to homeowner
- Tenants: security, peace of mind, convenience
- Property managers: increased business operational efficiency
- Disabled residents, elderlies, assisted living: safety, security, easy accessibility

**Case 1:** Used as a standalone Smart Doorbell

**Case 2:** Used with Smart Garage Door Controller/Smart Doorlock

Our Smart access Platform provides the ultimate low cost, high tech solution to the smart access of homes, office buildings, apartments, assisted living facilities and many others.
